

[illegible]

Technical drawing of a rectangular structure, likely a building footprint or a large container, showing dimensions and internal layout. The overall dimensions are 660 (width) by 500 (height). The drawing includes a detailed view of the top-left corner showing a smaller rectangle with dimensions 400 (width) by 500 (height). The main structure features a central area with a diagonal cross, possibly indicating a structural element or a partition. Dimensions for the internal sections are provided: 355 (width of the leftmost section), 600 (width of the central section), 350 (width of the rightmost section), and 450 (width of the far-right section). The drawing also shows a dashed line indicating a boundary or a break in the structure.

Technical drawing of a rectangular structure, likely a cross-section of a building component. The drawing shows a main rectangular body with a total width of 2400 and a total height of 2000. The top edge is divided into two sections: a left section of 500 and a right section of 355. The right section is further divided into a top part of 200 and a bottom part of 60. The left section has a height of 280. The bottom edge is divided into two sections: a left section of 280 and a right section of 60. The drawing is a line drawing with dimensions indicated by arrows and numbers.

The technical drawing shows a side elevation of a building facade. It features a window with a width of 1600 mm and a height of 1350 mm. To the left of the window is a door with a width of 800 mm and a height of 1950 mm. The drawing includes various dimensions in millimeters (mm) and symbols for sound insulation (a circle with a dot) and thermal insulation (a sun symbol).

The technical drawing illustrates a kitchen island with a rectangular countertop and a curved end. The top view shows a width of 450 units and a depth of 500 units. A dashed line indicates the internal structure or a secondary layer. The side view shows a height of 800 units and a curved section with a radius of R50. Below the island, there are two icons representing electrical outlets or switches.
